Note by Clark Night; This nice lady's posts, threads and other peoples posts warning about an eye surgeon's fraudulent ways were removed on 2 and possibly more forums, blogs. No doubt due to threats from people that sell eyeglasses, lasik surgery. The dishonest surgeon she reports is referred to by the destructive Plus Lens Anti-Corrective eyeglass lens method and lasik, cataract surgery sales people. The unnatural methods CAUSE cataract, retina damage, many eye-vision problems.

Avoid this eye surgeon. He poses as a natural eyesight teacher but really teaches unnatural methods, use of eyeglasses which result in development of cataract, other eye problems. Then the sales pitch for laser cornea, cataract and other surgeries.

North Iowa Eye Clinic history:

Clinic History The North Iowa Eye Clinic was founded in the 1920's by Dr. Steve O'Brien and continues to be this area's most advanced diagnostic and surgical eye clinic. He was joined in the 1950's by Dr. Harry Alcorn, who continued his practice with the clinic until his retirement in the mid 1980's. The clinic experienced further growth with the inclusion to its staff in the 1970's, of Dr. Addison Brown, deceased, and Dr. Michael Long, now retired. Dr. James Dummett joined the clinic in 1991 and retired in 2010. Over the past 25 years, the clinic has continued to expand and has welcomed to its staff, Dr. Bradley Isaak, Dr. Randall Brenton, Dr. Mark Meyer, Dr. Brandt Riley, Dr. Melissa Summerfield, Dr. Kent Juffer, and Dr. Vonda Capper. Throughout the years, procedures and equipment have undergone dramatic changes and will continue to change as technological advances become available. However, one area remains the same: our desire to ensure that our patients receive the best possible care. Currently the clinic has 5 board certified surgical ophthalmologists and 2 therapeutically certified optometrists on its staff, along with 30 employees, many of whom are certified ophthalmic or optometric assistants.

3. Frauenfeld Clinic website has no connections with Austria and 'Alexander Frauenfeld' recently removed all informations about Austria from his website, and the page footer. He even changed the title from 'Frauenfeld Clinic Austria'

Frauenfeld Method: Myopia Rehabilitation

to 'Frauenfeld Clinic ARCHIVE' now and disclaimer is changed too from 'small monkeys'

Frauenfeld Method: Myopia Rehabilitation

to more 'professional' now. So, we can be convinced now that he is definitely not an Austrian and never was here.

'Frauenfeld Clinic' is registered in Hong Kong, since December 2013, as 'Frauenfeld Vision Care, Limited' -

Today 'Alex Frauenfeld' changed his main photo on his Google+ account and revealed his dirty secret that he is not Alex Frauenfeld from Austria (as he wrote in 2013 and 2012), but Mark D. Meyer from Iowa, USA: Many of my long term clients know (and advocated its very creation) about this site's little secret: Alex Frauenfeld is a pseudonym.

Wow, a liar can into reading. And he still has paid programs on 'Frauenfeld Clinic' website, haha, 99\$ for 2 months-long newsletter. Liar (Mark. D. Meyer as Alex Frauenfeld from Frauenfeld Clinic) want to be rich. Yes, 'Alex Frauenfeld' is Mark D. Meyer from North Iowa Eye Clinic, where provide LASIK surgery, and on Frauenfeld Clinic website he wrote that LASIK is dangerous

'Alex Frauenfeld' is a liar.

Mark D. Meyer is a liar.

No, it's not 'Photoshopic things', it's true. Let's compare the two faces:

a) Alex Frauenfeld -

b) Mark D. Meyer -

'Alex Frauenfeld' never worked in Austria.

I posted on that forum because 'Alex Frauenfeld' had wrote too before.
